

Pelleting of compound feed

Description

The technical knowledge on pelleting will at first be imparted in short lectures and then deepened in practical exercises at the pilot plant stations of the institute.

The following subjects are dealt with in this course:

- Pressability and its influences
- Steam generation and steam quality
- Conditioning
- Operation measuring technique and control of pellet quality
- Operating parameters for the pellet mill
- Energy saving in the production process
- Practical training "Pelleting and pellet quality" (Impacts of formulation/impacts of the geometry)
- Wear and service life
- Cooling of pellets
- Gap width and pellet quality
- Material changes and stability of additives during pelleting
- Pelleting of renewable raw materials

(subject to change)

Learning objective

The participants will be enabled to improve the handling and control of the pelleting process in daily practice with simple means.

Target group

Intended for employees who are directly involved with the pelleting process and can influence significantly the essential quality properties of the produced pellets. The participation in this course is especially recommended for the training and further education of persons who have entered the compound-feed industry from other industries.

Language

This course will be given in English language.

Dates and locations

The course consists of 2 days.

Date: 20 and 21 March 2012

Location: Forschungsinstitut Futtermitteltechnik
 der Internationalen Forschungsgemeinschaft
 Futtermitteltechnik e.V.
 Research Institute of feed Technology of IFF
 Frickenmühle 1A
 D-38110 Braunschweig-Thune

Fill in the registration form (see below). We will be glad to prepare a suitable quotation for you.

Price

members of IFF: € 570.00/participants

non-members: € 760.00/participant,

(The admission fee is tax-free according to § 4, No. 22 UStG (German value added tax act))

The admission fee will be reduced for the second and further participants of one company to 80 %.

Registration

Do you want to attend this course? Then send in the entry form by *5 March 2012*.
