

Basic steps of compound-feed production

Description

In this course, the efficient production of compound-feed will be taught. The theoretical knowledge is delivered in an accessible way and complemented by hands-on exercises.

The following subjects are dealt with in this course:

- Determination and identification of substantial material properties
- Comminution at the feed mill
- Acceptance test, sampling and quality assurance
- Dosing at the feed mill
- Hygiene at the feed mill
- Mixing, mixer layouts and evaluation of the mixing accuracy
- Conveying
- Carryover and segregation
- Process measurement technology
- Explosion protection at the feed mill – risk assessment and measures

Practical training

- Comminution
- Material properties and mixing-time graph
- Dusting behaviour and sampling

Learning objective

Participants will be aware of the major parameters and thus be able to better control the basic steps in compound-feed production.

Target group

Intended for production managers and staff in feed mills producing compound and mineral feeds or premixes, who work in reception, milling or blending; it also caters for participants with a different background who work in mechanical and plant engineering or the upstream sector.

Language

This course will be given in English language.

Dates and locations

The course consists of two days.

Date: 12 and 13 November 2012

Location:

Forschungsinstitut Futtermitteltechnik
der Internationalen Forschungsgemeinschaft
Futtermitteltechnik e.V.
Research Institute of feed Technology of IFF
Frickenmühle 1A
D-38110 Braunschweig

Fill in the registration form (see below). We will be glad to prepare a suitable quotation for you.

Price

members of IFF: € 570.00/participants

non-members: € 760.00/participant,

The admission fee will be reduced for the second and further participants of one company to 80 %.

The admission fee is tax-free according to § 4, No. 22 USTG (German value added tax act.)

The fee includes written documents, soft drinks and lunch.

Registration

Do you want to attend this course? Then send in the registration form by *26 October 2012*.
