

Risk analysis and risk assessment feed sector

Description

The depth of the risk analysis and the risk assessment are determining for the degree to which companies expose themselves to the risk of a feed safety crisis. That makes the risk analysis and risk assessment part of the coverage of product liability. How is such a risk assessment set up?

The following subjects are dealt with in this course:

- set-up of risk identification
- risk analysis
- substantiation

Learning objective

Acquiring an insight into the way in which such a risk assessment is set up.
