1. Purpose of the document

This document contains the tariffs for the contributions in 2019 which the certification bodies and the certified companies are due to pay to GMP+ International. This applies to the certification bodies which are approved for the issuing of GMP+ certificates to companies on the basis of the GMP+ Feed Certification Scheme with the module GMP+ Feed Safety Assurance and the module GMP+ Feed Responsibility Assurance.

This document also contains the tariffs for the contributions that GMP+ certified companies are due to GMP+ International in accordance with said certification scheme.

The obligation to pay these financial contributions is laid down, on the one hand, in the approval contracts between the certification bodies and GMP+ International and, on the other hand, in the contracts between the certification bodies and the GMP+ certified companies.

Tariffs are also included for the purchase of other services and products of GMP+ International.

The tables in chapter 3 are displayed in a simplified manner as of 2019. The change only affects how they are presented. In terms of content, they have remained unchanged, with the exception of the tariff increase as of January 1st.

The basic principle of the raised tariffs is that the income should cover all the costs incurred in the administration of the above mentioned schemes and the associated support activities.

All amounts are exclusive of VAT. By GMP+ International is meant: GMP+ International B.V.

2. Certification bodies

2.1. Basic payment

- 2.1.1 The Certification Body will make the basic payments shown in Table 1 annually to GMP+ International.

- 2.1.2 The Certification Body will be due to pay the basic rates in April 2019. Payment must be made on the basis of an invoice to be issued by GMP+ International, within the time of payment of 21 days.
- 2.1.3 The previously mentioned basic tariff (a.) under 2.1.1. Table 1 does not apply for certification bodies approved by a different certification scheme - approved by GMP+ International – and that only registered with GMP+ International for approval for a County Note. In all other cases, this exception does not apply. Requirement is that the relevant Certification Body has entered into an agreement with GMP+ International. These approved certification schemes (including the scopes) are referred to in chapter 3 of GMP+ BA10 *Minimum requirements for purchasing*.

2.2. Other payments

- 2.2.1 The Certification Body submitting an approval request as referred to in the GMP+ C10 standard, to obtain a license to carry out GMP+ FSA and/or GMP+ FRA certification, is due fee to GMP+ International prior to the start of the assessment, as referred to under a. in table 2. If the approval procedure is successfully completed within 13 weeks, this fee will be reimbursed.

In case of an approval procedure exceeding 13 weeks, with a maximum turnaround time of 26 weeks, the amount as referred to under a. in table 2 is due again. If the approval procedure is successfully completed within 26 weeks, this second charged fee will be reimbursed.

If the turnaround time of the approval procedure exceeds 26 weeks, there will be no reimbursement.

- 2.2.2 The Certification Body that signs-up auditors for examinations, is due to GMP+ International the fee per signed up auditor per scope, as specified under b. in table 2.
- 2.2.3 For the issuance of a written exam certificate for an auditor, the Certification Body is due to GMP+ International the fee as specified under c. in table 2.

- 2.2.5 The certification bodies are required to pay the contributions of the GMP+ certified companies as referred to under par. 3 to GMP+ International. GMP+ International usually sends an invoice two months after the issuance of the certificate and in the corresponding month in each subsequent year that the certificate is valid. As a reference date, the end date of the certificate is used. If, after the issuance of the initial certificate, scopes/certificates are added, the month of each year similar to the one in which the end date lies, shall apply.
- 2.2.6 The amounts specified in sections 2.1.1 to 2.2.5 must be transferred within 21 days to the account of GMP+ International after receipt of an invoice.

* In case of participation in (future) digital exams, a changed tariff will apply.

3. GMP+ certified companies

3.1. General

- 3.1.1 A GMP+ certified company as referred to in chapter 1 is due an annual financial contribution to GMP+ International as stated hereinafter. - 3.1.2. If the certification for a company location relates to multiple areas of applicability (scopes) or to multiple standards then, for each additional area of applicability (scope), 40% of the appropriate applicable amount is due. In these cases the highest amount is due in full and the discount applies to the lower tariffs.

Explanation:

A company will be assigned the scope Trade if it trades in animal feed it hasn't produced itself. Sale of self-produced animal feed is covered by the scope Production.

In the scope Transport, there is a distinction between small companies with less or equal to (\leq) 2 employees and with more than (>2) employees. The Certification Body is required to inform GMP+ International about the numbers of employees per certified company. If no registration was conducted, the highest rate will be used.

In addition to transport companies, there are also tractionairs with and without own manual. These fall under the structure of Transport animal feed.

Application of the so-called scale rate for MultiSite is only possible if the applicable GMP+ requirements are met, as specified in Annex 4 of the GMP+ C12. In this, the Certification Body must ensure the correct information for registration in the database of GMP+ International.
