

3. b. Groups of products falling within the scope of Regulation (EC) No. 999/2001

As announced in the IDTF newsletter of 04-10-2018, the ICRT has updated the requirements for cleaning, but also structured the products falling within the scope of this regulation in a better way. For this purpose the ICRT has, where possible, made groups of products with same regulatory requirements:

Product name	N° IDTF
(Compound feed containing) Blood products derived from non-ruminants intended to be used for the feeding of non-ruminant farmed animals (including aquaculture animals)	10042
(Compound feed containing) Fishmeal intended to be used for the feeding of non-ruminant farmed animals (including aquaculture animals) except unweaned ruminants	10046
Dicalcium phosphate and tricalcium phosphate of animal origin intended for use in feedingstuffs, or compound feed containing these products	10118
Processed animal protein from non-ruminants other than fishmeal intended for use in feedingstuffs, or compound feed containing these products	10119
Processed animal protein derived from ruminants intended for use in feedingstuffs, or compound feed containing these products	10152
Other products derived from ruminants (see description)	10153

As a consequence of this, some products which falling within the scope of Regulation (EC) No 999/2001 already listed in the IDTF have been transferred to these new groups. The previous IDTF numbers of these products will be deleted per 15.03.2019. For detailed information see the tables below.

Product name	Previous N° IDTF	New N° IDTF
Blood products of non-ruminants	10093	10042 (Compound feed containing) Blood products derived from non-ruminants intended to be used for the feeding of non-ruminant farmed animals (including aquaculture animals)
Fish feed containing blood products from non-ruminants except serum	10117	

Product name	Previous N° IDTF	New N° IDTF
Animal feeds with fish meal	10043	10046 (Compound feed containing) Fishmeal intended to be used for the feeding of non-ruminant farmed animals (including aquaculture animals) except unweaned ruminants
Crustacea meal	10100	
Fishbone meal	10102	
Krill protein concentrate, hydrolysed, if dry, if not described elsewhere in the IDTF	10103	
Krill protein concentrate, hydrolysed, if not dry, if not described elsewhere in the IDTF	10104	
Marine annelid meal	10105	
Marine zooplankton meal	10106	
Mollusc meal	10107	

Product name	Previous N° IDTF	New N° IDTF
Squid meal	10108	
Fish solubles, from a (EC) 1069/2009 registered company, if not dry	30353	
Fish solubles, from a (EC) 1069/2009 registered company, if dry	40365	

Product name	Previous N° IDTF	New N° IDTF
Dicalcium phosphate of animal origin; [Calcium hydrogen orthophosphate]	10040	10118 Dicalcium phosphate and tricalcium phosphate of animal origin intended for use in feedingstuffs, or compound feed containing these products
Tri-calcium phosphate of animal origin; [Tricalcium orthophosphate]	10044	

Product name	Previous N° IDTF	New N° IDTF
Fish feed containing blood meal of non-ruminants	10047	10119 Processed animal protein from non-ruminants other than fishmeal intended for use in feedingstuffs, or compound feed containing these products
Degelatinised bone meal, from a (EC) 1069/2009 registered company	10084	
Blood meal of non-ruminants	10091	
Feather meal, not demonstrably hydrolysed	10094	
Hair meal, originating from a Reg. (EC) 1069/2009 approved plant	30404	

Product name	Previous N° IDTF	New N° IDTF
Blood meal of ruminants or unknown origin	10092	10152
Hair meal, originating from a Reg. (EC) 1069/2009 approved plant	30404	Processed animal protein derived from ruminants intended for use in feedingstuffs, or compound feed containing these products
Degelatinised bone meal, from a (EC) 1069/2009 registered company	10084	

Product name	Previous N° IDTF	New N° IDTF
Hydrolysed animal proteins of ruminants (except hides and skins) or unknown origin	10074	10153 Other products derived from ruminants (see description)
Blood products of ruminants or unknown origin	10075	
Products from the confectionery industry with gelatine of ruminants	10087	
Animal feed containing gelatine from ruminants, blood products from ruminants, hydrolysed proteins from ruminants (other parts than hides and skins) or blood meal from ruminants	10120	
Gelatine of ruminants or unknown origin, if dry	30386
