

Chain Reaction: Growing Together in Feed Safety

Time: 9:30-17:00
 Schedule: 29 September 2022 (Thursday)
 Venue: Clarion Congress Hotel Prague
 Freyova 33, CZ - 190 00, Prague 9 Vysočany

About the theme:

About 10 years ago, we introduced the GMP+ Feed Certification scheme in Czech Republic. Globally we see a growth in GMP+ Certified companies, and a significant part of that is taking place in Czech Republic.

We achieved this growth by working together.. We bring together the entire feed supply and value chain and combine this with feed safety culture. Every stakeholder in the feed chain plays an important role to protect the production of safe food for everyone. What is your role in this and how can we ensure that we all grow in realising and contributing towards feed safety?

We invite you to join this seminar and take part in the discussions. Click [here](#) to register.

Time	Topic	Speaker
